

## Three-Side Sealing Tablet Packing Machine **DXD-P80C**

### Characteristics:

1. The three-side sealing tablet packing machine comes with PLC programmable control and an English and Chinese display screen, making it easy to operate and maintain. It is easy to adjust.
2. A photoelectric tracking system and two-way compensation function of the tablet packing machine ensure correct and accurate double-face printing and counting.
3. The tablet packer shell, made of full stainless steel, is highly corrosion proof, and easy to clean.
4. The three-side sealing tablet packing machine uses a measuring cup for dosing.
5. Options for cutting way: saw-tooth cutting, dashed line cutting
6. Option: ribbon coding machine

### Usage:

The packaging machine is used for packing non sticky regular pills or round tablets or capsules, providing counting and packing into sachets. It is used in the medicine, food and daily chemical industries.

### Main Technological Parameters:

Item / Model	DXD-P80C
Pouch length	50-120mm (adjustable)
Pouch width	40-80mm (should change bag former )
Packing speed	30-50 times/min (based on material and bag size)
Filling capacity	1-10pcs
Cutting	Flat cutting, with tear notch.
Applicable film	PET/AL/PE, PET/PE, NY/AL/PE, NY/PE etc.
Electric source	380V 50Hz (as per customer's request)
Total power	1.2 Kw
G.W.	260 Kg
Package size	1100*800*1600mm(L×W×H)
