

KLTB-L Vertical Round Bottle Labeling Machine

It is used for outside labor of round bottles. It can label small, big label around bottle.

Adopting human interface directly perceived show and operation simple. It has many memorial equipments and changes product without resetting. It has the functions of stoppage show and give an alarm. The components adopt accuracy processing and special dispose so as to make product good. The labeling precision is high stable and long life.

USE RANGE

Foodstuff, chemical, medicine, cosmetics, electrical products, hardware, car parts, stationery, battery, paper skin, oils products and different specifications of packing products

TECHNICAL SPECIFICATIONS

Voltage	220 V/50
Power	400 W
Speed	80~200b/min
Bottle Dimension	φ10~80 mm
Height	10~80 mm
Length	0~250 mm
Label Outside Dimension	φ300 mm
Label Inside Dimension	φ76 mm
Precision	±1.0 mm
Conveyer Width	85
Overall Dimension	1600×1100×1300 mm
Weight	200 Kg
