

Eye Drop Filling Machine

This E-Liquid filling machine is suitable for:

Daily chemistry, cosmetics. Small glass bottles and plastic bottles such as electronic liquids, essential oils, syrups, etc.

Main Features

1. Microcomputer setting, high filling accuracy
2. The main engine is equipped with stepless frequency speed control.
3. Automatic production capacity quantitative control.
4. With all kinds of fault alerting, for low pressure, no filling, no inner cap etc.
5. The machine can stop automatically in case of no filling, no inner cap etc.

This machine body made by stainless steel, and the working process is controlled by touch screen, and the filling volume is adjustable.

This machine is suitable for filling capping e-liquid bottle of various specifications. According to customer filling material viscosity to choose piston filling system or peristaltic pump filling system.

According to customer's requirement, we will offer our technician for oversea to install and adjust machine. We provide the full-lifetime warranty consult with one year free accessories, even two years. If you need, we also can arrange the engineer to your factory do field installation guidance.

Parameters:

Filling Range	20-120ml
Capacity	20-30 Bottles/Minute
Voltage	220V/380V
Filling Precision	$\leq \pm 1\%$
Capping Rate	$\geq 99\%$
Air Supply	1.3 m ³ /h 0.4-0.8Mpa
Dimension	1200*1000*1800mm
Weight	550kg
