

## Small Round Container Labeling Machine SL-4214

### Features:

1. Be applicable to circle label or half-circle label for orally liquid bottles, small battery, little round bottles etc.
2. The automatic feeder is available. Maximum producing speed can up to 500bpm.
3. The inclined structure guarantees that the labeled things can be located automatically.
4. The feeding speed is very high because of the particular structure of the double rotary wheel feeder and the enlarged storage
5. Serve motor drives the labeling head, so maximum labeling speed is 60 meter per minute.
6. The machine can cooperate with automatic dropping system to pack.

### Parameters:

- producing speed: Max 500p/min
- labeling accuracy:  $\pm 0.5$ mm
- label max width: 100mm
- tube diameter:  $\phi 10$ - $\phi 30$ mm
- label inner diameter:  $\phi 76$ mm
- label outer diameter: Max $\phi 350$ mm
- outline size: 1520x520x1550(mm)
- using power: 220V 50Hz 1000W
