

Single Lane 3/4 side Sealing Powder Packing Machine ZD240F

Automatic Sachets Packing Machine is suitable for three side sealing and four side sealing packaging of powder materials. Equipped with Powder Auger Elevator or Pneumatic Vacuum Feeder. It can realize automatic measurement, bag making, filling, sealing, cutting, continuous making sachet and finished product conveying. You can also add optional features, such as easy tearing, printing Labelling Machine.

Features:

1. PLC control system, wide vision touch screen with English/Chinese interface;
2. State-of-art but simple design, easy to operate and maintain;
3. Automatically measuring, bags making, filling, sealing, cutting, printing lot number and cutting easy tearing notches;
4. Continuous bag/bag across, easy cutting, hole punching (if needed);
5. Suitable for film like Paper/polyethylene, cellophane/polyethylene, plated aluminum/polyethylene, BOPP/polyethylene, nylon/polyethylene

APPLICATION:

Automatic sachet packing machine is suitable for the packaging of non-flowing powder materials, such as: milk powder, soy milk powder, starch, veterinary medicine, pesticide powder, facial mask powder, enzyme preparation, glucose, seasoning, spicy powder, flavor and fragrance, coffee powder, seasoning powder, etc. Commonly used machines is Seasoning Packing Machine and Spice Packing Machine.

Technical Parameters:

Model	ZD240F
Filling type	Powder
Capacity	Max 35 bags/min
Filling Range	Max 50ml
Measuring method	Auger
Bags size	Length: 20--130mm Width:20--120mm
Film width	Max.240 mm
Film thickness	0.05--0.10mm
Sealing type	3 or 4 side sealing bag
Film material	Laminated film
Air consumption	0.8 MPA 0.25m ³ /min
Power source	1N+PE/50HZ/AC220V(380V)/1.2KW
Dimension	L600 x W600x H1600mm
Weight	160kg
