

GX200 High Speed Capping Machine with Cap Elevator

This versatile in-line capper handles a wide range of containers at speed to 200 bpm and offers a quick and easy change over routine that maximizes production flexibility. The tightening discs are gentle which will not damage caps but with an excellent capping performance.

Features:

1. Capping speed up to 200 CPM
2. One button to adjust height
3. Wide applicability for various caps and bottles
4. Auto stop and alarm when lack of cap
5. Stainless steel frame
6. 3 sets of tightening discs
7. No-tool adjustment
8. Choice of various types of cap feeders

Industry area

- Cosmetic /personal care
- Household chemical
- Food & beverage
- Nutraceuticals
- Pharmaceuticals

Technical Parameters:
