

Automatic Round Bottle Labeling Machine

Main Features

1. A wide range of application, to meet the 10-100mm diameter range of cylinder labeling
2. Labeling accuracy is high, the tag end to end local deviation $\leq \pm 0.5\text{mm}$
3. Clever extrusion device material, simply put the workpiece, and auto-complete labeling
4. Card position adjustment, simple the different workpiece labeling switch
5. Timing belt traction, greatly improving the mechanical stability

Technical Parameters

label speed	3000bottles/hour
label height	15-180mm
label length	25-300mm
material	304stainless steel
power	1.5kw
precision	$\pm 1\text{mm}$
roll inside	76mm
roll outside	300mm
