

Electronic Tablet / Capsule Counter SL Series

SL Series Electronic Tablet/Capsule Counter is specialized for counting the products of medicine, health care, food, agricultural chemicals, and chemical engineering and so on. For example: tablets, coated tablets, soft/hard capsules. The machine can be used alone as well as with other machines produced by our company to form a complete producing line.

Users are able to control the whole working process of the machine through user interface. High speed PLC system controls the whole process including counting, filling and monitoring. The machine counts precisely, quickly on both common capsules and transparent ones (of weird shapes).
