

## ***Automatic Box Label Applicator Machine with Correction Device MT-220***

### **Application**

- Label Adhesive Paper Stickers to Products Top Surface
- Print Codes on Labels is optional
- Products Applicable: Products with Flat/Top surface, good for small box
- Labels Applicable: adhesive paper sticker, also can be customized for clear labels

### **Features**

- Labeling from Top to the objects, and it's adjustable for different sized products
- With Ribbon Belt Coder to print on the labels
- Automatic Labeling, work independently or connected to a production line
- Easy to operate on Touch Screen, labeling controlled by PLC
- High Labeling Speed and Labeling Accuracy, no products, no labeling

### **Work flow:**

- Manually load bottles on conveyor
- Bottle convey to labeling station
- Automatic labeling

### **Options Function**

Custom options: Remote control, bigger machine, special labels, code printer, product feeder etc.

**Parameter:**

Speed	2000-6000 bph (related to product size)
Labeling accuracy	+/- 1mm
Products applicable	15<width≤250mm(can be customized), length>10mm
Labels applicable	adhesive stickers/opaque or transparent label 10≤width≤150mm, 10mm≤length≤1500mm
Power supply	220V 50hz 1kw
Application	stick labels on paper, box etc...
Air supply	0.6MPa(If with a code printer)
Feature	PLC, Touch Screen, easy operation, with Correction Device
