

ATLAS

PIEZO- Solvent-based Inks

The High-Volume, High Speed Inkjet

The Production Performer

A true production system that lets you enjoy low operating costs and high production speeds. Produce high quality variable data images, addresses, barcodes, logos, graphics, marketing messages and more on sheet or web applications.

Low consumable costs, high production rates and fast start up times are all hallmarks of the Atlas inkjet system. It truly is a reliable performer that you can count on to process high volumes of work faster at the lowest cost of ownership.

Combining Atlas inkjet technology with Buskro's advanced tracking and read & print capabilities, not only provides the speed and reliability Atlas is known for, but also incorporates the highest level of integrity on the market today.

This gives you the peace of mind you need; knowing that your work will be consistently accurate and on time.

Adding software features such as OCR for read & print applications make Atlas a good fit for high speed inserting, binding, ticketing, numbering, bar-coding and all other applications where integrity is just as important as speed.

Models	1250	2250	3250
Print swath	1" (25mm)	2" (51mm)	3" (76mm)
Vertical DPI	256	256	256
Horizontal DPI	110, 220, 330, 440, 660		
Print technology	Piezo DOD; 30 ng drop; 41 KHz		
Ink chemistry	Solvent-based; Monet (1 L box)		
Ink delivery	2 or 4-channel pumped; level sensing		
Substrates	Variety, including porous, glossy		
Features	Reliable; rugged; high speed; low running costs		
Speed	300 FPM (660 DPI) to 1,400 FPM (110 DPI)		

Choose between Buskro's ultra reliable Monet or fast drying Cezanne inks to configure a system that is right for you!
