

Soap Cartoning Machine

This soap cartoning machine can open cartons, insert the leaflet (optional) products into cartons, emboss (optional), tuck in or glue sealing (optional) and discharge cartons automatically.

It can connect with Blister Machine, Pillow Pack Machine, Cellophane wrapper, etc., to form a complete Production Packaging Line.

Technical parameter

Encasing Speed	30-80box/min
Box Quality Requirement	250-350g/m ² (according to customer request)
Box Dimension Range	(55-200)mm X(14-90)mm X(13-65)mm
Compressed Air Working Pressure	≥0.6mpa
Air Consumption	20m ³ /h
Power Supply	380V 50Hz
Noise	≤80dB
Motor Power	1.5KW
Leaflet Unfolded leaflet specification	L (80-250)mm × W(90-170)mm
Fold range	(1-4) fold
Machine Dimension	3800X1100X1900mm
Environment temperature	25±10°C
Machine Weight	1500KG
