

YT-500C Automatic Liquid Packing Machine

This series machine widely used to pack milk, soybean milk, sauce, vinegar, yellow wine, all kind of drink with film. The production is beauty and fastness, the machine adopts stainless steel shell, and the sanitation is guaranteed.

The whole process can be accomplished automatically, such as ultraviolet sterilization, bag figuration, date printing, quantitative filling, enveloping, cutting, counting, and so on. The temperature of heat-sealing is controlled automatically,

It can with glasses cover, ribbon coder and UV sterilizer

Technical parameters:

Model	YT-500C
Production capacity	2000-2200 (pouch/h)
Filling volume	50-500 (ml)
Power	220v/380v 1.6 (Kw)
Film width	100-320 (mm)
Weight	300 (kg)
Size	850×760×1800 (mm)
