

## Stacking Machine (PL-Z110 / PL-Z120)

Stacking Machine is connects behind with packing machine, make small packages in order, make boxing and bagging easier. Its easy operation and high efficient gains high praise from all customers.

### **Application:**

Packet including biscuit, candy, noodle, wafer, waffle, soap, chocolate, etc.

### **Feature:**

- Photo sensor, stepper motor, imported electric components create good quality and stable performance.
- Capacity is 0 to 300 packet/min.
- Adjustable. The range of products is L\*W\*H=(50-150)\*(35-100)\*(5-60)mm. If product is larger or smaller than the range, a tailor machine can be made according to your requirement.
- 4.2 or 3 workers are enough for biscuit boxing and bagging. Save much labor cost.
- Stainless steel cover, which is more durable

**Technical Parameters:**

<b>Model / Data</b>	<b>PL-Z110 (single motor)</b>	<b>PL-Z120 (dual motor)</b>
Material	Partial stainless steel	Stainless steel
Capacity	0~280 /min	0~300/min
Packet thickness	5~30 mm	5~60 mm
Packet height	50~150 mm	50~150 mm
Packet width	35~100 mm	35~100 mm
Dimension	1740*530*800mm	1740*530*800mm
Voltage	220v	220v
Frequency	50 Hz	50 Hz
