

Online Shrink Tunnel with L Sealers VTMST1510 / VTMST2015 / VTMST2520

We are one of the accredited manufacturers, suppliers and exporters of a premium range of Online Shrink Tunnel with L Sealers. The range made available by us is fabricated using optimum-grade mild steel with suitable angle and power coated making machines so that these are in compliance with international quality standards. In our range shrink sleeves can be adjusted as per the product's size. These sealers are provided with conveyor belt for quick and effortless production. Also, these are available with silicon sealing pads. Our range is placed on special heavy duty castor wheels for smooth mobility.
