

DCS-Z6X02 Vacuum Packaging Machine

Features:

1. Automatic measurement, filling, unloading, six plastic, vacuum, sealing, automatic delivery;
2. OMRON's touch screen and programmable controller, with high reliability, more intelligent;
3. The weighing part adopts the intelligent control instrument with high precision sensor and independent research and development, the precision is high, the speed is quick;
4. A large number of imported pneumatic components, work reliably, easy to maintain.

Technical Paramters:

Model	DCS-Z6X02	
Rated Packing Weight	0.5-1	2.5-5
Packing Speed(bags/h)	mini720	mini420
Packing Accuracy	x(0.2)	
Division Value(g)	2	
Power	AC380V 4KW	
Air	0.4-0.6Mpa 5m3/h
