

## RR6000P Wrap-Around OPP Labeling Machines

Hot melt glue labeling machine is also called OPP/BOPP labeling machine. RR6000P is our 3rd generation inline hot glue labeler, with 4 labeling positions, the machine can work at the speed 6000 bottles per hour (500ml). It is widely used for round shape and 0.1~2 liters bottles for juice, soda/mineral water, carbonated drink etc.

This machine can cut OPP, BOPP, plastic and paper labels to meet different requirements.

### Parameters:

Model	RR6000P
Power supply	380V±10%
Total power	5KW
Labeling type	Wrapping round, labels in roll
Bottles	Round $\phi$ 45-100mm, Height80-300mm
Label sizes	Length 135-300mm, height 20-140mm
Glue coating	Two ends of the labels, 10mm
Labeling precision	±0.5~1mm
Capacity	6000BPH(500ML)
Glue consumption	30~40Thousands bottles need about 1kg(labels height 50mm)
Compressed air	MIN5.0bar MAX8.0bar
Air consumption	0.2M <sup>3</sup> /min
Total weight	1000kg
Machine sizes	L=2000 W=1300 H=1800 mm
