

KV-210FSG Automatic Premade Pouch Packing Machine for Powder

Features

1. The material box can be easily disassembled and washed without tools;
2. Servo motor and servo drive control screw;
3. All 304 stainless steel structure;
4. Equipped with height adjusting hand wheel, it is convenient to adjust the height of the whole machine;
5. Replaceable screw accessories, can adapt to ultra-fine powder to small particles and other materials.

Application & Bag Type

Application: It is widely used in the prefabricated bag packaging of all kinds of powder and powder with good fluidity in food, medicine and other industries. Such as condiments, milk powder, glucose, pepper, coffee powder, starch, raw powder, enzyme powder, solid drinks and other powder packaging.

Technical Parameters:

| Model | KV-210FSG |
|--------------------------------|--|
| Production Speed | 15-45bags/min |
| Material Weight | 1-450g |
| Packaging Error | ±0.2g-3g(depending on material) |
| Control System | servo controller + color touch screen |
| Bag width | 80mm—210mm |
| Bag length | 80mm - 280mm |
| Bag type | stand up bags, four side sealed bags, zipper bags, handbags, paper bags and other prefabricated bags |
| Applicable packaging materials | PP、PE、PVC、PS、EVA、PET、PVDC + PVC、OPP + Composite CPP, etc. |
| Power Supply | 380V / 50Hz / 2.5kW(customized) |
| Gas Consumption | 0.7m ³ /min |
| Machine size | (L.W.H) 1770mm * 1300mm * 2126mm |
| Machine weight | 750kg |
| Selection device | zipper opening device, exhaust device, coding machine , inkjet machine, profiled die cutting |
