

## *AF-TF Coffee Tins Can Filling Sealing Machine*

This tins can be filling sealing Machine is a complete, economical solution to meet your filling production line requirements.

It can measure and fill powder and granular.

It consists of the Filling He independent motorized chain conveyor mounted on a sturdy, stable frame base, and all necessary accessories to reliably move and position containers for filling, dispense the required amount of product, then quickly move the filled containers away to other equipment in your line (e.g., cappers, labelers, etc.).

It fits more to the fluidic or low-fluidity materials, like milk powder, albumen powder, pharmaceuticals, condiment, solid drink, white sugar, dextrose, coffee, agriculture pesticide, granular additive, etc.

The sealing of cans are beautiful and tight.

### **Features:**

- Stainless steel structure; The quick disconnecting hopper could be washed easily without tools.
- Servo motor drive filling auger, fast, stable and high accuracy
- Replacing the auger parts, it is suitable for material from super thin powder to granule.
- Include hand-wheel of adjustable height.
- Reasonable cap feeding manner: Caps will be put under seaming head in advance then cans lift up and cap will be taken together to the seaming head-100% precise positioning can be assured.

**Product Parameter:**

Production speed	20-30tins/min
Filling range	10~5000g
Filling speed	20-30tins/min
Filling Accuracy	100~500g $\leq \pm 1.5$
Lifter hopper volume	220L
Filling Hopper volume	50L
Sealing head	1 head
Tins diameter	$\Phi 50 \sim 126$ mm
Tins height	100~240mm
