

## *Rectangular Inner and Outer Bag Packing Machine / AIO168-MWF51*

1. Ultrasonic-sealing inner bag and heat-sealing outer bag. Safe, efficient and eco-friendly.
2. Single hopper with load-cell weigher. Setting weight according to different demands.
3. Easily operate by touch panel. Quickly clean ingredient.
4. All automatic from weighing, filling, sealing, nitrogen gas-filling... etc. All the routes contacted with ingredient are made by stainless steel (SUS).
5. Applicable inner bag material : Nylon, PET, PLA, NWF... etc.
6. Suitable for whole leaf and granule, such as tea, floral tea, Chinese herb... etc.

### **Specification:**

- Capacity : 60 bags/ min, It depends on different ingredient and weight.
- Packing Material (Inner bag) : NWF, Nylon, PET, PLA...etc
- Bag size Inner bag : 55mm x 80mm、 58mm x 58mm
- Bag size Outer bag : 80mm x 100mm、 90mm x 105mm
- Weighing system : Loadcell weighing system
- Filling Range : 1-25g It depends on ingredient and weight
- Power Supply : AC220V, 50/60Hz/, 3P, 4KW
- Air Supply : 6kg/cm<sup>2</sup> (0.6 MPa)
- Dimension : 1300mm(L) x 1000mm(W) x 2810mm(H)
- Weight : 660kgs
- Standard Accessories : Inner bag chute, Outer bag forming set, Touch panel, Empty bag alarm, Ultrasound overload alarm, Empty hopper alarm, Film connecting plate
- Optional Device : TTO printer, Hot stamping printer, Static electricity eliminator, Dust proof Inner bag material cover
