

GF-4 Cup Washing, Filling And Sealing Machine

GF-4 Cup washing and sealing machine for a variety of mineral water, beverages and other products. The machine adopts Japan OMRON programmable logic controller, pneumatic control components, intelligent digital temperature control system, stainless steel, with automatic washing cups, sealing high strength, good sealing, low failure rate and other characteristics. It is the preferred product to choose of the enterprise automation production.

Technical Parameters:

Model	GF-4 Cup filling and sealing machine
Production	3500 - 4000 cups / hour (each time out of 4 cups)
Cup capacity	50ml ~ 300ml
Tank capacity	70L
Power	4 Kw
Air consumption	0.8m ³ / min
Power	~ 220V 50Hz
Mold	According to the caliber size custom mold
Dimensions	3000mmx700mmx1650mm
Weight	About 700kg
