- c. Optional English or Chinese screen display, easy and simple operation.
- d. Bag-making with precise technology enable the error less than about 0.5um.
- e. High precision PID adjustment, ensure the quality of different material sealing.
- f. Full set with high quality components ensure fine packaging performance, low noise, clear cutting pattern and strong salability.

Technical Parameter:

Model	SF-220L
Type	Electric machine drive
Machine Material	Full stainless steel (material touching parts are 304#ss)
Packing Speed	20-50bags/min (depends on your products quantity each bag)
Film Width	Max 220mm
Bag Width	30-110mm
Bag Length	30-200mm
Dimension	800(L)*1000(W)*1800mm(H)
Weight	230kg
Power	1150W
Voltage	220V/380V 50-60HZ
