

## ZH-CQ1 Large Angle Hoister

The hoister is applicable for large angle lifting of granule material such as corn, food, fodder, plastic and chemical industry, etc. For this lifting machine, the hopper is driven by the chains to lift. Its used for large angle feeding of granule or small block material. It has advantages of large quantity and height lifting.

### Technical Parameters:

Model	ZH-CQ1 Large Angle Hoister
Baffle Distance	254mm
Material	#304 Steel
Capability	3-7m <sup>3</sup> /h
Voltage	AC 220V/AC 380V , 50Hz;
Power	1.1KW
Weight	450KG
Height	3480 mm
Package Size	6090mm(L)*660mm(W)*650mm(H)
