

MM-215 Automatic Round Bottle Horizontal Labeling Machine

This labeler is designed for cylindrical body or bottles with small diameter. It cannot stand alone and be conveyed steadily. Such as injecting bottles, dry cells, pens, and so no.

- Product Advantage: It is horizontal labeling. This kind of labeling gives out low bottle broken rate.
- Capacity: 40-300 bottles per minute
- Application: injecting bottles, dry cells, pens, and so no.

Product Feature

- 1) This labeler is designed for cylindrical body or bottles with small diameter. It cannot stand alone and be conveyed steadily. Such as injecting bottles, dry cells, pens, and so no.
- 2) It is horizontal labeling. This kind of labeling gives out low bottle broken rate.
- 3) The machine will stop running automatically when no label or no bottle. Advanced international control system make labeling in high stability and high speed and low rate of leaving out.
- 4) PLC with touch screen control, stable performance and easy to operate.
- 5) Used stainless steel material and aluminum alloy. Good appearance and durable to use.

Technical parameter

- Model No.: MM-215
- Machine Dimensions: 2800(L)*600(W)*1590(H)mm
- Machine Weight: 350KGS
- Control System: PLC and Touch Screen Controller
- Power: AC220V, 1.5KW, 50/60HZ
- Labeling Speed: 40-300 bottles per minute (depends on products size and the label length)
- Label Size: 10-250mm in length, 15-180mm in width
- Label Reel Inner Diameter: 76mm
- Label Reel Outer Diameter: within 300mm
- Labeling Error: ± 1 mm
- Bottle Size: 10-35mm in diameter, 15-350mm in height
- Optional Equipment: Feeding Device, Coding Printer
