- Suitable for slender round bottle.
- Stainless steel frame construction and components are standard.
- Use screw to send bottle which makes smoothly and safely.
- Send bottles in the direction of vertical horizontal to feed stability, use easy and low labor strength.
- Use servo motor to make high speed and good quality.

Model	YX-AB350
Label width	10-135mm;
Labeling speed	30-350 bottles/Min;
Production diameter	15-150mm;
Label height	15-180mm;
Labeling accuracy	±1mm;
Power supply	4200W , 110V/220V , 50/60HZ;
Machine size	L2880 * W1700 *H1580 mm;
Reel Inner diameter	75mm;
Reel outer diameter	Max 360mm
