

Automatic Bottle Packing PE Film Heat Shrink Wrapping Machine RM-30

Suitable for various shapes of bottle packing, widely used in the bottles packing on small scale bottles, film length can be adjustable.

Technical Parameters

Type	RM-30	
Output	According to bottle type	8-10PKG/Min
Power	Main power	380v 3Phase / 220v 3Phase 50/60HZ
	Voltage	25KW
Temperature	Shrink Tunnel Temperature	160-260°C
	Cutting Temperature	140-160°C
Application	Width Range	200-560mm
	Thickness Range	0.03-0.1mm
Main machine size	Length width height/weight	2800*840*1375mm/650kg
