

## GDY-12 Beer Can Filling Machine

The filler is used for filling carbonated beverage, such as Coca cola, beer etc. It can also fill other liquid such as vinegar, milk and pesticide. It has advantage of no broken bottle, no clepsydra, and convenient maintenance and others. It also has overload protection and LCD as the filler works in fully sealed condition and no pollution comes out. It meets the foodstuff sanitation law.

### Technical Parameter:

Model	GDY-12
Production capacity	1000-2000C/H
Filling temperature	2-6℃
Filling pressure	0.2-0.3Mpa
Power	0.75Kw
Overall dimension	1100×1050×1800mm
Weight	600Kg
