

ARLM-160C Automatic Round Bottle Self-adhesive Labeling Machine (motor holding bottle)

ARLM-160C Automatic Labeling Machine can meet the needs of all round bottle labeling or semi-circle labeling, bottle labeling switching between simple, convenient adjustment;

Wide application range: self-adhesive labels, adhesive film, electronic monitoring code, bar code etc.

Application Industry: widely used in food, medicine, cosmetics, daily chemical, electronics, hardware, plastics and other industries.

Application example: PET round bottle labeling, plastic bottle labeling, canned food, etc.

Features

1. Intelligent control, automatic photoelectric tracking, with no bottle no labeling.
2. Three rollers clamping labeling, press labeling device to make label close-fitting and improve packaging quality.
3. The three-roller clamping is driven by a motor, which is fast and stable.
4. PLC control system and touch screen control panel, easy to adjust labeling parameters.
5. High precision sensor, control standard position. Function of sensor can be customized such as change the color or Transparent label.
6. Automatic sub bottle function can be stand-alone production; can also be connected to the production line.

Note:

Standard machine can only be used normal round bottles, can not be too soft or bulge.

If the bottle is irregular, please contact us for customization.

Parameter:

Model	ARLM-160C
Power	550W
Filling speed	10-40PCS/min
Filling accuracy	±1%
Bottle diameter	30-100mm
Lable Weight	20-100mm
Lable Lenght	30-314mm
