

Salt Packing Machine

In the food packaging industry, one cannot afford to compromise on precision, speed, and reliability especially when it comes to packaging common household basics such as salt. At the center stage in ensuring effective and accurate packaging of salt in various quantities is the 0.5kg-2kg Salt Packing Machine. This article will delve into the different kinds, working processes, applications, functionalities, trends for the future, roles as well as benefits relating to 0.5kg-2kg Salt Packing Machine and answer ten frequently asked questions about this essential machine.

Technical Specification:

Machine Type	Automatic Salt Packing Machine
Weight Range	0.5kg – 2kg
Packaging Material	Laminated Film
Packaging Speed	20-40 bags per minute (depending on size)
Bag Type	Pillow Bag, Gusset Bag
Bag Width	80mm – 200mm
Bag Length	100mm – 300mm
Power Supply	220V/50Hz, 1 phase
Power Consumption	3kW
Air Pressure	0.6MPa
Air Consumption	0.4m ³ /min
Machine Dimensions (LxWxH)	1200mm x 900mm x 2000mm
Weight	Approximately 400kg
Control System	PLC Control System with Touch Screen HMI
Sealing Type	Heat Sealing
Optional Feature	Nitrogen Flushing System
