

## *Multi-functional Dropping Pill Machine DPM Series*

Multi-functional Dropping Pill Machine (DPM2000S series) is mainly composed of refrigeration unit, circulating oil pump, cooling column, drop tank (including medicine liquid heating, temperature control, dripping control and stirring system), oil tank, pill out feed device. Multi-functional Dropping Pill Machine is specially designed for developing new dropping pill and realizing the modernization of Chinese medicine for universities and colleges, research institutions and Chinese medicine manufacturing enterprises.

### **Technical Parameters:**

Model	DPM2000S-5	DPM2000S-1
Drop cylinder capacity	0.6L	0.6L
Pill weight	5-70mg (diameter 1-5mm)	5-70mg (diameter 1-5mm)
Dripper quantity	1-8	1-12
Stirring speed	0-1400 RPM	0-1400 RPM
Refrigeration unit	1/3 horsepower	1/3 horsepower
Voltage	220V/50HZ	220V/50HZ
Power	1.8KW	1.8KW
Weight	110KG	180KG
Dimensions	750x600x1900mm	750x600x1980mm
