

PZG-40 Effervescent Tablet Packaging Machine

PZG-40 Effervescent Tablet Packaging Machine is designed for pharmaceutical, foodstuff, chemical etc. manufacturing and is based on a well-proven technology for rapid and gentle filling of tablets in rigid tubes. PZG-40 Effervescent Tablet Packaging Machine is fully GMP conform and can deliver a nominal capacity of 30 tubes/min.

Features:

- Automatic tablet counting
- No tube, no filling; no tablet, no capping
- Automatic vibratory cap feeding
- Automatic cap pressing
- Detection and rejection if less filling
- PLC+HMI control system

Technical Parameters:

Model	PZG-40
Filling range	10-30 tablets/tube
Diameter of tablet	12-30mm
Thickness of tablet	3-8mm
Length of Tube	80-180mm
Max. Capacity	40 tubes/min
Power supply	220V/50Hz
Power	0.8kw
Compressed air	0.5-0.7Mpa, 0.28CBM/min
Dimensions	2000×1600×1700mm
Weight	400Kg
