

SW-PL1 Multihead Weigher Vertical Packing System

Suitable for many kinds of measuring equipment's, puffy food, shrimp roll, peanut, popcorn, cornmeal, seed, sugar and salt etc. which shape is roll, slice and granule etc.

Features

- ◆ Full automatic from feeding, weighing, filling, packing to outputting;
- ◇ Multihead weigher modular control system keep production efficiency;
- ◆ High weighing precision by load cell weighing;
- ◇ Open door alarm and stop machine running in any condition for safety regulation;
- ◆ Separate circuit boxes for pneumatic and power control. Low noise and more stable;
- ◇ All parts can be taken out without tools.

Products Details

Model	SW-PL1
Weight	10-1000g (10 head); 10-2000g (14 head)
Accuracy	+0.1-1.5g
Speed	30-50 bpm (normal); 50-70 bpm (double servo); 70-120 bpm (continuous sealing)
Bag style	Pillow bag, gusset bag, quad-sealed bag
Bag size	Length 80-800mm, width 60-500mm (Actual bag size depends on actual packing machine model)
Bag material	Laminated film or PE film
Weighing method	Load cell
Touch screen	7" or 9.7" touch screen
Air consumption	1.5m ³ /min
Voltage	220V/50HZ or 60HZ; single phase; 5.95KW
