

## ZS High Efficiency Screening Machine

This machine is composed of vertical oscillating motor, screen bottom, mesh frame, screening chamber and rubber oscillation bowl and so on. This machine can be used for single step and multi-steps. It has many advantages such as compact structure, easy operation & maintenance, reliable running, low noise, high productivity, fine granule and universality and so on.

### Technical Parameter

Model	ZS-400	ZS-600	ZS-800
Capacity (Kg/H)	40-50	200-1500	200-1200
Mesh Screen	2-200 mesh	2-200 mesh	2-200 mesh
Vibration frequency	1500 times/min.	1500 times/min.	1500 times/min.
Power	0.4kW	0.4kW	0.75kW
Dimensions (mm)(Two layers)	600×500×1000	800×700×1150	1100×950×1150
Weight	200kg	250kg	300kg

Model	ZS-1000	ZS-1200
Capacity (Kg/H)	500-3500	800-5000
Mesh Screen	2-200 mesh	2-200 mesh
Vibration frequency	1500 times/min.	1500 times/min.
Power	1.1kW	1.5kW
Dimensions (mm)(Two layers)	1200×1100×1250	1380×1300×1280
Weight	380kg	450kg
