

## ***BS-400LA+BMD-450CL-Type Automatic Heat Shrinkable Packaging Machine (fully closed)***

Single or collective packaging of pharmaceutical, food, beverage, stationery, printed matter, cosmetics, gifts, electronic products, toys, auto parts, tableware and other products.

### **Technical Parameters**

<b>BS-400LA</b>	
Sealing and cutting form	L-type fully enclosed type
Electricity; source	380V/50-60Hz/3phase
top speed	35 packages / sub
Packing height	≤125mm
Package width	≤350mm
Package size	Width + height ≤ 400mm; Length + height ≤ 480mm
Use of film	POF folding film
Maximum film	530mm (width) × 280mm (OD)
Total power	1.5kW
Platform height	780-850mm
Gas; Pressure	≤0.5MPa(5 bar)
Sealing system	Constant temperature heating system, easy to change cutter, sealing and cutting without smoke and odor
Main materials	carbon steel
Total weight	300kg

<b>BMD-450C</b>	
Electricity; source	380V/50-60Hz/3phase
Furnace body size	1200mm (L), furnace mouth 450 (W) × 220 (H) mm
Conveying speed	Adjustable, 40 m / min
Conveyor belt	Chain conveyor belt, roller sleeve silicon rubber tube
Total power	7kW
Platform height	780-850mm
Main materials	carbon steel
Total weight	160kg
