

Vertical Case Erecting Machine

Case Erecting Machine can automatic case erect, bottom folding flap and bend flap, and bottom tape sticking, case transport out and other functions, It is economical and efficient.

Technical parameters

Erecting speed	720 Cases/h
Case stacking speed	100 cases/h
Case size mm	MAX 600×500×350mm;
	MIN 200×150×100mm
Case material	General specification corrugated paper
Use tape	OPP; Kraft paper 38 mm or 50 mm width
Case size exchange	Handle adjustment for about 1 minute
Air pressure	0.5Mpa
Air consumption	300L/min
Power supply	220V/50Hz
Total power	7.5KW
Machine Dimension(L×W×H)	2000×1900×1450mm
Machine weight	600kg
