

## MD-FM200 Premade Bag Coffee Bean Packing Machine

The FM200 bag packaging machine has good stability, high control accuracy, and does not come into contact with the packaging materials, which not only ensures the cleanliness of the packaging materials but also extends the service life of the machine. It uses multi-station rotary packaging, which effectively saves time and improves packaging efficiency.

### Features

1. The overall closed structure is strong and stable, and the appearance is simpler, more compact and beautiful.
2. Adopting a new mechanical bag clamping mechanism on the front and back of the bag to solve the problem of bag type and bag size switching.
3. Automatic positioning platform to ensure consistent sealing.
4. PLC control system, full display and real-time monitoring, touch screen interface is more convenient to operate, and one-click reset of the whole machine can be achieved.
5. Use multiple bags and packaging bag reshaping to make the bags more beautiful.

### Parameters

Model	MD-FM200		
Packaging Film Material	Single-layer PE, PE composite film, paper film and other composite film		
Production Efficiency	8-15 bags/min		
Packing Range	125-1000g		
Packing Accuracy	Heat seal		
Power Supply	3kW/220V	Air Consumption/Pressure	6-8bar/0.6m <sup>3</sup> /min
Machine Dimensions (L.W.H)	2250×1815×1788 (mm)	Machine Weight	900kg(Host)
