

DK-320XSE Down Paper Pillow Packing Machine

Dustial Machinery® Down Paper Pillow Packing Machine is a kind of packaging equipment that is widely used on the surface. The pillow packaging machine is also widely used, whether it is in the pharmaceutical industry, or in the food industry, or in the industrial industry, the traditional baking industry, have a wide range of related pillow packaging machines

The key parts of the machine are made of stainless steel, in line with food QS and pharmaceutical GMP hygienic standards; double frequency conversion control, automatic memory and storage of 12 sets of packaging parameters, can quickly replace the packaging, convenient and fast, excellent performance; high-sensitivity electric eye automatic tracking, no need to Manual adjustment, accurate size and position of sealing and cutting, strong and beautiful sealing; independent PID intelligent control of temperature, stable temperature control, better suitable for various packaging materials; color touch screen display, positioning stop, automatic fault diagnosis function, the display is clear at a glance; automatic production counting, Quantitative and fixed production, accurate and clear packaging output; simple mechanical design and transmission system, more reliable work, and more convenient maintenance; can be equipped with nitrogen or mixed gas, production date coding system according to user product packaging requirements; upper paper feeding mechanism, There are two feeding methods: pushing block feeding type and packaging film direct feeding type. Dustial Machinery machinery manufacturers are trying to do better

Parameters

Type	DK-320XSE
Film width	Max : 320mm
Bag length	60-6000mm
Bag with	35-140mm
Product height	5-55mm
Film roll diameter	Max : 300mm
Packaging rate	25-230 bag/min
Packaging materials	OPP, OPP/CPP, KOP/CPP,ALU-FILM
Power	220V, 50/60Hz, 3.9KW
Machine size	(L)3940×(W)880×(H)1520
Machine weight	480Kg
