

HC-110L Horizontal Automatic Packaging Machine

HC-110L horizontal packaging machine is an ideal bag packaging equipment that meets the requirements of high-quality packaging and smaller bags. The packaging speed is fast, and it can realize three-side sealing and four-side sealing bags; Packaging needs for various materials such as body and solid objects; roll film forming is used to reduce packaging costs.

Machine parameters:

Model	HC-110L
Type Of Pouch	3 /4 side seal
Min. Pouch Size	50×50mm
Max. Pouch Size	110×130mm
Packing Speed	<60 pouch/min
Packing Range	Max 60ml
Filling Station	1 station
Power	2.5kw
Volt	380V 3P 50Hz
Air Consumption	400L/min
Air Pressure	0.7 Mpa
Machine Weight	550kg
Machine Dimension	2060×750×1330mm
