

ZD-D50 Automatic PP Woven Bag Feeding Packing Machine

ZD-D system auto granule bulk bag packing machine is developed specifically for 10~50kg heavy bag of granule products which made in agriculture and food industry, such as rice, seeds, fertilizer, feed, sugar, pet food, etc. This machine can realize automatic weighing, bag-feeding, filling, bag-conveying, sealing/sewing, etc. Our company new improve the technology, using high speed servo weighing machine instead of normal weighing machine, increase the weighing speed by a large margin.

Technical parameters:

| Parameters | ZD-D50 system |
|-------------------------|--|
| Material of premade bag | PP Woven bag |
| Packaging products | 40~50kgGranules |
| Packaging size | 550-650*900-1100mm |
| Speed | 8~10bags per min |
| Weighing accuracy | ±0.2% |
| Power supply | 380V±10% 50Hz 6KW |
| Machine weight | 2800kg |
| Machine size | 5900*1800*4500mm |
| Air supply source | 0.6MPa, 0.8m ³ /min |
| Sealing type | Woven bag: sew; kraft paper bag: sealing/sew; plastic bag: sealing |
