

## Automatic Cosmetic Face Cream Chocolate Fruit Jam Pepper Sauce Gralic Butter Oyster Sauce Quantitative Filling Machine With Mixer & Heater

This automatic paste filling machine has the memory function, operator can save multiple sets of data and call working data as production need. It is designed for filling thick paste like lotion, body gel, face cream. The part of the machine body in contact with the material can be customized with food-grade stainless steel when filling tomato paste, mayonnaise, peanut butter, honey. It is also equipped with the heater and mixer for filling material pretreatment, improves the production quality.

### **Main Feature**

- ▶ In the whole filling process, the filling speed can be divided into two settings (the initial filling speed and the filling speed near the end), which can effectively cut down on the foam during the filling.
- ▶ Set filling volume and filling speed to finish filling work, operation is more convenient
- ▶ Controlled by servo motor, it has higher filling accuracy and filling speed.

## Parameter

- Voltage: 480V
- Power: 6KW
- Filling Heads: 6 Heads(Can be customized)
- Filling Range: 10-300ml(Can be customized)
- Filling Speed: About 20-70bottles/min(depending on materials and bottle size)
- Suitable temperature range:  $\leq 80^{\circ}\text{C}$
- Mixing speed: About 50r/min
- Filling Accuracy:  $\pm 1\%$
- Air Pressure: 0.5-0.8MPa
- Memory Function: Available
- Machine size: About 2500\*950\*1900mm(L\*W\*H)
