

MT-200 Automatic High Speed Round Bottle Labeling Machine

The automatic labeling machine is designed for round bottles or other common cylindrical products. Such as cylindrical plastic bottles, glass bottles, and metal bottles. It is mainly used for labeling round bottles or round containers in food and beverage industries.

Technical Parameters

Voltage:	110V/220V, 50/60Hz
Dimensions (L*W*H):	2000mm x 900mm x 1400mm
Weight:	250kg
Labeling Speed:	20-40 pcs/min
Label Length:	15-300mm
Label Height:	10-110mm
Extended Label Height:	10-180mm
Maximum Label Height:	10-220mm
Labeling Accuracy:	±1mm
Applicable Bottle Diameter:	20-120mm
Conveyor Belt Width:	120mm (Customizable)
