

DT1000 – Rotary Product Collection Table

The DT1000 is a rotary product collection table designed for smooth and efficient product accumulation at the end of production lines.

Engineered for reliable operation and stable product handling, the system supports controlled product collection and downstream packaging operations.

Features

- Rotary product collection table design
- Constructed entirely from AISI 304 stainless steel
- 1000 mm table diameter
- Integrated geared motor drive system
- Adjustable rotation speed via speed control system
- Stainless steel guide barriers
- Stable and efficient product accumulation
- Suitable for end-of-line product collection applications
- Compact and durable industrial design

Technical Specifications

Dimensions (L × W × H)	1150 × 1150 × 1200 mm
Weight	85 kg
Power Supply	1 Phase / 220 V / 50-60 Hz
Installed Power	0,37 kW
