

VLT Label Sleeving Machine

VLT Label Sleeving Machine is applicable to drink and health food, the max labeling speed can reach 150 bottles/min.

Features:

1. Equipment is set to send bottle, bottle dividing, a set of tags, shrinkage label functions in an automatic intelligent packing line.
2. High speed, precise position, manpower curtailed, beautiful appearance.
3. With easy cleaning and maintenance function.

Technique Parameter:

Power :	AC220V,50/60HZ,1.5—2KW, single-phase OR
	AC220V,50/60HZ,4KW, single-phase
Speed:	Standard label length: 100mm, production speed varies with clients' needs; standard speed is 100-150 bottle/min. Shorter are M labels, faster is the production speed.
Diameter of Bottle Body:	Φ28 mm-Φ125mm
Length of Label:	30 mm ~ 250mm
Thickness of Label:	0.035 mm ~0.13 mm
Materials of Label:	PVC、PET、OPS
Input Power:	3.0KW
Input Voltage:	φ3, 380/220VAC 50Hz/60Hz
Internal Diameter of Paper Tube:	5"~10" adjust it at will.
Machine Size:	L2000mm*W850mm*H2000mm
