## Automatic Round Bottle Labeling Machine MT-200

### Product introduction:

1. Mainly used to round bottle of accurate label. Synchronous sponge loses steeples speed regulation points bottles of institutions, can be arbitrary set points bottles of spacing. Reciprocating cylinder positioning products, the products specified position in designated accurate label.

2. Biggest strength: can be arbitrary set bottle interval, The products can be specified position in designated accurate label.

### Technical parameters:

Model	MT200
Voltage	AC110V/220V 50/60HZ 500W
Working speed	0-200 pcs/min
Bottle diameter	20-100mm
Bottle height	23-350mm
Label size	W: 10-150mm L: 15-200
Precision	±1mm
Label max outer diameters	300mm
Label inside diameter	75mm
Machine size	2000X1300X1500mm
Weight of automatic bottle labeling machine	200kg
