

Automatic Flat Labeling Machine with Feeder HNTB-P3001

This machine is suitable for applying labels on flat products such as cartons, pouches, bottles, plastic caps, etc. Applicable labels: adhesive labels, adhesive film, electronic monitoring code, bar code and so on. Auto feeder is installed on this machine

Features

1. Using advanced sorting - reverse hand wheel feeding tech, sorting rate is much higher than the general ones.
2. For the drug box custody code, the labeling speed can reach 200 pcs/min.
3. Using pressure roller press the product, smooth delivery and high labeling accuracy.
4. Structural combination of mechanical adjustment part and ingenious design of label roll winding, easy to adjust labeling positions so that the conversion between different products and label winding becomes simple and time-saving;
5. Automatic photoelectric tracking, no product, no labeling, automatic calibration and detection if no labels to prevent labeling leakage and label waste;
6. With fault alarm function, production counting function, power saving function, production number set prompt function, parameter setting protection function.

Technical parameter

Model	HNTB-P3001
Label size	Length : 6mm~250mm
	Width : 6mm~160mm
	Outer roll dia. (mm) : ϕ 250
	Inner roll dia. (mm) : ϕ 76mm
Product size	Length : 40mm~280mm
	Width : 40mm~200mm
	Height : 0.2mm~2mm
Labeling speed	40~200pcs/min
Labeling accuracy	\pm 0.5mm
Power source	220V 50HZ
Power	1.45KW
Dimension	2200mm×700mm×1400mm
Weight	180KG
