GRANULATOR MACHINE

The granulator machine is specially design for the pharmaceutical industry. The machine is fabricated by using high quality raw material. The high grade material made it sturdy and long-lasting.

SILENT FEATURE :

- efficient and durable
- minimum noise level

- more output
- the device is simple screen holding and tensioning
- The different size of the screen is available.

TECHNICAL SPECIFICATION :

MODEL	APM-OG-8"	APM-OG-12"
Stirrer Size	Dia. 8" (200 mm)	Dia. 12" (300 mm)
Stirrer Motion	Oscillating Type	Oscillating Type
* Output	Up to 220 Kg./Hr.	350 Kg./Hr.
Hopper Capacity	5 Ltrs. (Over Flow)	20 Ltrs. (Over Flow)
Screen Area	275mm (l) x 285mm (W) Working Area: Dia. 205mm	408mm (l) x 428mm (W) Working Area: Dia. 305mm
Oscillation	84 per minute	84 per minute
Charging Height	1060 mm	1155 mm
Discharge Height	721 mm	775 mm
Electric Motor	1 HP / 1440 RPM / 50 Hz., 3 Ph.	2 HP/1440 RPM/50 Hz., 3 Ph.
