

Mask Cartoning Machine DXH-100D

Mask Cartoning Machine suitable for automatic feeding and packing such as plaster, granule and some similar bag type products into the carton. Automatic feeding structure adjusts conveniently, randomly set the bag number in touch screen. Online products feeding and detecting, leaflet folding and feeding, leaflet detecting, carton opening and forming, products and leaflet pushing into carton, printing lot number, sealing carton with tuck-in or hot melt glue device. Automatic reject lacking of package products and leaflet, convey the finished products. The machine can be used single or joint with other equipment for a production line.

Features:

- Adopt International famous brand of electrical component such as PLC, Frequency inverters, etc.
- Adopt Human-machine operation system.
- Servo feeding suitable for different specification Alu-PVC blister. Automatically stop when machine is overloaded.
- Automatically reject lacking of package products and leaflet.
- Automatically display trouble, alarm and counting.
- Stable performance, easy operation.

Technological parameter:

Model	DXH-100D	
Speed	50~100boxes/min	
Box	Quality requirement	250~350g/m ² (according to the dimensions to confirm)
	Dimension(L × W × H)	(70-180)mm × (85-130)mm × (15-50)mm
Leaflet	Quality requirement	60-70 g/m ²
	Unfolded leaflet Specification	(80-250)mm × (90-170)mm
	Folded Leaflet Specification	1-4 fold
Compressed air	Working pressure	≥ 0.6mpa
	Air consumption	20m ³ /h
Power Supply	380V 50HZ	
Motor power	3.5kw	
Machine Dimension	(L×W×H) 4200 × 10700 × 1550mm	
Weight	2000kg
