

SJIII-K100 Automatic Granule Packing Machine

The SJIII-K series Automatic Granule Packaging Machine is designed and manufactured by advanced science and technology in the world. It has reliable quality, high efficiency and beautiful shape. As regards its automatic control system, we have adopted advanced photo electricity track planet differential compensating mode and automatic constant-temperature control mechanism, which makes our machine has very fast packaging speed. Moreover, our machine can carry out step less speed adjustment, and automatically finish the processes of bag making, computation, filling, sealing, cutting, counting and printing number on the bag. It can be used for various compound packaging materials.

Technical parameters:

MODEL	SJIII-K100
bag length (mm)	50-150
bag width (mm)	25-120
packing film width (mm)	60-240
capacity (bag/min)	40-80
volume (ml)	5-100
power (kw/V)	1.6
air (MPA)	0.6
air consumption (L/MIN)	100
size (L×W×H) (mm)	760*980*1800
weight (kg)	300
