

Box Cellophane Wrapping Machine CK-BZ200A

As a box cellophane wrapping machine manufacturer, we have the first-class machine research and development department, which can make the most suitable cigarette box wrapping machine according to the requirements of customers, in the process of making machines, we adopt high-quality parts to ensure the stable performance of the machine.

Application Of Box Wrapping Machine:

The cigarette box wrapping machine is a multifunction wrapping equipment, can achieve a variety of products packaging. For example, cigarette box, perfume box, health care box, medicine box, hardware box and so on.

Advantages Of Cigarette Box Wrapping Machine:

1. The cellophane wrapping machine is compact and small in size, and is very convenient for transportation and installation.
2. The machine is installed with fault indication device, which can effectively reduce the fault.
3. It is an automatic machine, various functions can be completed automatically, such as wrapping, counting and so on.
4. Stable performance, easy operation and maintenance, is an ideal packaging equipment.
5. Advanced multi-function digital frequency transformer is used in the machine, which can realize a variety of packaging specifications.
6. The mold of the box cellophane wrapping machine can be changed easily, saving production time effectively.

Model	CK-BZ200A
Packaging speed	40-80boxes/min
Packaging materials	BOPP
Length of packing size	50-160mm
Width of packing size	20-100mm
Height of packing size	8-50mm
Machine dimension	2000*790*1550mm
Machine weight	600kg
Power	4.5kw
Voltage	220V 50Hz
