

## *YG-620GS Single-Side Automatic Labeling Machine*

YG-620GS single-side bottle labeling machine for square bottles or flat shape of things off the side of the bottle label can be installed independent of plastic bodies, specialized cosmetics industry for automatic labeling and other irregular shape of the object; roll can be installed standard devices.

### **Device Advantages:**

- 1) Control system: Brand PLC control system, with high stable operation and extremely low failure rate.
- 2) Operation system: 6 inches touch screen, directly visual interface easy operation, with Chinese and English two kinds language, also rich with the help of the function and fault display function.
- 3) Check system: Use German LEUZE check label sensor, automatic check label station, stable and convenient don't have much higher requirement for the worker.
- 4) Alarm function: such as label spill, label broken or other malfunction during machine working all will alarm and stop working.
- 5) Machine Material: The machine and spare parts all use material S304 stainless steel and anodized senior aluminum alloy, with high corrosion resistance and never rust.
- 6) Labeling way: use the servo send label system to send label on product surface.
- 7) Low voltage circuit all use the German Schneider brand.

**Machine Parameters:**

Labeling Speed	40 M / Min (80-200 Pieces / Min)
Labeling Accuracy	±1mm
The Maximum Width Of The Label	190mm (Can Be Designed According To Customer Requirements)
Be Affixed Size	Thickness: ≥ 30mm Height: ≤ 500mm
Roll Inter	Φ76.2 Mm
Applicable Roll Diameter	MaximumΦ330mm
Machine Size	L3048*W1200*H1500 (Mm)
Weight	280 KG
Use Of Electricity	380/220V 50Hz 2300W
