

Sloping-type Cartoning Machine MKK-series

Features:

- Blade carton forming and reverse folding device enable to form the carton 10mm thickness and square shaped carton stably.
- Emboss printing on the carton body is possible.
- Sloping carton at manual feeding process enables to feed the product into the carton softly.
- Packing form can be selected freely from hot melt and insertion flap gluing.
- Extremely simplified machine to pursue the compact, flexibility and abbreviation.

Main specification:

Type	MKK-5	MKK-6	MKK-8
Carton size	W=25mm~90mm	W=35mm~125mm	W=25mm~90mm
	H=10mm~62mm	H=10mm~80mm	H=10mm~62mm
	L=50(38)~200mm	L=50~200mm	L=60~300mm
	* W+H≤125mm	* W+H≤150mm	* W+H≤200mm
Capacity	50 Cartons / minutes		40 Cartons/minutes
Electric	3Phases 200V 2kW (5kW)		
Air source	0.5MPa/cm 2 250l /min		
Machine Weight	About 1,200kg	About 1,300kg	About 1,500kg
Machine size	W=1000mm	W=1000mm	W=1000mm
	H=1500mm	H=1500mm	H=1500mm
	L=2600mm	L=2700mm	L=3200mm
Option	Emboss print device, Gluing device (Hot melt)
